Ref.: AN 1/29.2-10/24

26 March 2010

**Subject:** Adoption of Amendment 17 to Annex 5

**Action required:** a) Notify any disapproval before 12 July 2010; b) Notify any differences and compliance before 18 October 2010

Sir/Madam,

1. I have the honour to inform you that Amendment 17 to the *International Standards and Recommended Practices, Units of Measurement to be Used in Air and Ground Operations* (Annex 5 to the Convention on International Civil Aviation) was adopted by the Council at the fifth meeting of its 189th Session on 22 February 2010. Copies of the Amendment and the Resolution of Adoption are available as attachments to the electronic version of this State letter on the ICAO-NET ([www.icao.int/icaonet](http://www.icao.int/icaonet)).

2. When adopting the amendment, the Council prescribed 12 July 2010 as the date on which it will become effective, except for any part concerning which a majority of Contracting States have registered their disapproval before that date. In addition, the Council resolved that Amendment 17, to the extent it becomes effective, will become applicable on 18 November 2010.

3. Amendment 17 arises from the Secretariat with the assistance of the Aerodrome Meteorological Observation and Forecast Study Group (AMOFSG) and improves the efficiency of operations and reflects current practice in the case of the units of measurement by replacing “km/h” by “m/s” as the unit of measurement for wind speed.

4. The subjects are given in the amendment to the Foreword of Annex 5, a copy of which is in Attachment A.

5. In accordance with the decision of the 26th Session of the Assembly, I would like to bring to your attention the Organization’s long-standing practice of providing documentation to States upon request. In this regard, I wish to refer you to the ICAO-NET website ([www.icao.int/icaonet](http://www.icao.int/icaonet)) where you can access all relevant documentation. The practice of dispatching printed copies of such documentation has now been discontinued.

6. In conformity with the Resolution of Adoption, may I request:
- a) that before 12 July 2010 you inform me if there is any part of the adopted Standards and Recommended Practices (SARPs) amendments in Amendment 17 concerning which your Government wishes to register disapproval, using the form in Attachment B for this purpose. Please note that only statements of disapproval need be registered and if you do not reply it will be assumed that you do not disapprove of the amendment;
  - b) that before 18 October 2010 you inform me of the following, using the form in Attachment C for this purpose:
    - 1) any differences that will exist on 18 November 2010 between the national regulations or practices of your Government and the provisions of the whole of Annex 5, as amended by all amendments up to and including Amendment 17, and thereafter of any further differences that may arise; and
    - 2) the date or dates by which your Government will have complied with the provisions of the whole of Annex 5, as amended by all amendments up to and including Amendment 17.

7. With reference to the request in paragraph 6 a) above, it should be noted that a registration of disapproval of Amendment 17 or any part of it in accordance with Article 90 of the Convention does not constitute a notification of differences under Article 38 of the Convention. To comply with the latter provision, a separate statement is necessary if any differences do exist, as requested in paragraph 6 b) 1). It is recalled in this respect that international Standards in Annexes have a conditional binding force, to the extent that the State or States concerned have not notified any difference thereto under Article 38 of the Convention.

8. Guidance on the determination and reporting of differences is given in the Note on the Notification of Differences in Attachment D.

9. Please note that a detailed repetition of previously notified differences, if they continue to apply, may be avoided by stating the current validity of such differences.

10. I would appreciate it if you would also send a copy of your notifications, referred to in paragraph 6 b) above, to the ICAO Regional Office accredited to your Government.

11. As soon as practicable after the amendment becomes effective, on 12 July 2010, replacement pages incorporating Amendment 17 will be forwarded to you.

Accept, Sir/Madam, the assurances of my highest consideration.

Raymond Benjamin  
Secretary General

**NOTE ON THE NOTIFICATION OF DIFFERENCES TO ANNEX 5 AND  
FORM OF NOTIFICATION**

*(Prepared and issued in accordance with instructions of the Council)*

1. *Introduction*

1.1 The Assembly and the Council, when reviewing the notification of differences by States in compliance with Article 38 of the Convention, have repeatedly noted that the state of such reporting is not entirely satisfactory.

1.2 With a view to achieving a more comprehensive coverage, this note is issued to facilitate the determination and reporting of such differences and to state the primary purpose of such reporting.

1.3 The primary purpose of reporting of differences is to promote safety and efficiency in air navigation by ensuring that governmental and other agencies, including operators and service providers, concerned with international civil aviation are made aware of all national regulations and practices in so far as they differ from those prescribed in the ICAO Standards.

1.4 Contracting States are, therefore, requested to give particular attention to the notification before 18 October 2010 of differences with respect to Standards in Annex 5. The Council has also urged Contracting States to extend the above considerations to Recommended Practices.

1.5 Contracting States are asked to note further that it is necessary to make an explicit statement of intent to comply where such intent exists, or where such is not the intent, of the difference or differences that will exist. This statement should be made not only to the latest amendment but to the whole Annex, including the amendment.

1.6 If previous notifications have been made in respect of this Annex, detailed repetition may be avoided, if appropriate, by stating the current validity of the earlier notification. States are requested to provide updates of the differences previously notified after each amendment, as appropriate, until the difference no longer exists.

2. *Notification of differences to Annex 5, including Amendment 17*

2.1 Past experience has indicated that the reporting of differences to Annex 5 has in some instances been too extensive since some appear merely to be a different manner of expressing the same intent.

2.2 Guidance to Contracting States in the reporting of differences to Annex 5 can only be given in very general terms. Where the national regulations of States call for compliance with procedures that are not identical but essentially similar to those contained in the Annex, no difference should be reported since the details of the procedures existing are the subject of notification through the medium of aeronautical information publications. Although differences to Recommended Practices are not notifiable under Article 38 of the Convention, Contracting States are urged to notify the Organization of the differences between their national regulations and practices and any corresponding Recommended Practices contained in an Annex. States should categorize each difference notified on the basis of whether the corresponding national regulation is:

- a) ***More exacting or exceeds the ICAO Standard or Recommended Practice (SARP) (Category A)***. This category applies when the national regulation is more demanding than the corresponding SARP, or imposes an obligation within the scope of the Annex which is not covered by a SARP. This is of particular importance where a State requires a higher standard which affects the operation of aircraft of other Contracting States in and above its territory;
- b) ***Different in character or other means of compliance (Category B)\****. This category applies when the national regulation is different in character from the corresponding ICAO SARP, or when the national regulation differs in principle, type or system from the corresponding SARP, without necessarily imposing an additional obligation; and
- c) ***Less protective or partially implemented/not implemented (Category C)***. This category applies when the national regulation is less protective than the corresponding SARP; or when no national regulation has been promulgated to address the corresponding SARP, in whole or in part.

2.3 When a Contracting State deems an ICAO Standard concerning aircraft, operations, equipment, personnel, or air navigation facilities or services to be not applicable to the existing aviation activities of the State, notification of a difference is not required. For example, a Contracting State that is not a State of Design or Manufacture and that does not have any national regulations on the subject, would not be required to notify differences to Annex 8 provisions related to the design and construction of an aircraft.

2.4 For States that have already fully reported differences from Annex 5 or have reported that no differences exist, the reporting of any further differences occasioned by the amendment should be relatively straightforward; however, attention is called to paragraph 1.5 wherein it is indicated that this statement should be not only to the latest amendment but to the whole Annex, including the amendment.

### 3. *Form of notification of differences*

3.1 Differences should be notified in the following form:

- a) *Reference*: The number of the paragraph or subparagraph in Annex 5 as amended which contains the Standard or Recommended Practice to which the difference relates;
- b) *Category*: Indicate the category of the difference as A, B or C in accordance with paragraph 2.2 above;
- c) *Description of the difference*: Clearly and concisely describe the difference and its effect; and

---

\* The expression “different in character or other means of compliance” in b) would be applied to a national regulation which achieves, by other means, the same objective as that of the corresponding ICAO SARPs and so cannot be classified under a) or c).

- d) *Remarks:* Under “Remarks” indicate reasons for the difference and intentions including any planned date for implementation.

3.2 The differences notified will be recorded in a Supplement to the Annex, normally in the terms used by the Contracting State when making the notification. In the interest of making the supplement as useful as possible, please make statements as clear and concise as possible and confine remarks to essential points. Comments on implementation, in accordance with paragraph 4 b) 2) of the Resolution of Adoption, should not be combined with those concerning differences. The provision of extracts from national regulations cannot be considered as sufficient to satisfy the obligation to notify differences. General comments that do not relate to specific differences will not be published in Supplements.

**RESOLUTION OF ADOPTION**

*The Council*

Acting in accordance with the Convention on International Civil Aviation, and particularly with the provisions of Articles 37, 54 and 90 thereof,

1. *Hereby adopts* on 22 February 2010 Amendment 17 to the International Standards and Recommended Practices contained in the document entitled *International Standards and Recommended Practices, Units of Measurement to be Used in Air and Ground Operations* which for convenience is designated Annex 5 to the Convention;

2. *Prescribes* 12 July 2010 as the date upon which the said amendment shall become effective, except for any part thereof in respect of which a majority of the Contracting States have registered their disapproval with the Council before that date;

3. *Resolves* that the said amendment or such parts thereof as have become effective shall become applicable on 18 November 2010;

4. *Requests the Secretary General:*

a) to notify each Contracting State immediately of the above action and immediately after 12 July 2010 of those parts of the amendment which have become effective;

b) to request each Contracting State:

1) to notify the Organization (in accordance with the obligation imposed by Article 38 of the Convention) of the differences that will exist on 18 November 2010 between its national regulations or practices and the provisions of the Standards in the Annex as hereby amended, such notification to be made before 18 October 2010, and thereafter to notify the Organization of any further differences that arise;

2) to notify the Organization before 18 October 2010 of the date or dates by which it will have complied with the provisions of the Standards in the Annex as hereby amended;

c) to invite each Contracting State to notify additionally any differences between its own practices and those established by the Recommended Practices, when the notification of such differences is important for the safety of air navigation, following the procedure specified in subparagraph b) above with respect to differences from Standards.
