

Notice of Proposal to Construct or Alter a Structure - CAR Part 77

This form is to be used to notify CAA that:

1. A structure that is proposed to be built or altered that is:
 - 60m (200ft) or higher; or
 - Within a Low Flying Zone; or
 - Within an aerodrome/heliport obstacle protection area; or
2. A structure that is proposed to discharge efflux with a velocity in excess of 4.3m per second that:
 - is 60m (200ft) AGL or higher; or
 - discharges through an obstacle limitation surface of an aerodrome.

This notification is to be submitted to the CAA at least 90 days before the proposed commencement date of construction or alteration except as provided in Rule 77.13(b).

The CAA Standard Rate hourly charge applies.

1. Proposer Details

Name: (Individual or Organisation)					
Address for Service: <i>Applicants have to provide an address for service in Mongolia (ie, a physical address) and to promptly notify the Director of any changes.</i>					
Tel:		Fax:		Email:	
Postal Address: <i>(If different from Address for Service.)</i>					
Authorised Contact:					
Tel:		Fax:		Email:	

2. Nature of Proposal

New construction <input type="checkbox"/>		Alteration to existing structure <input type="checkbox"/>		Use of structure discharging efflux <input type="checkbox"/>	
Location (WGS84)	Lat		°S	Long	°E
Start date/time (UBT or UTC)			Completion date/time or PERMANENT		
A. Elevation of site above mean sea level (metres)			B. Completed height of structure above ground level (metres)		
C. Maximum effective height of above mean sea level (metres) (C=A+B)					

3. Description of Proposal

(If an application has been, or is to be, made under the Resource Management Act, these details may be attached instead)

Complete description of proposal. Examples of details required are:

- (a) effective radiated power and assigned frequency of all existing, proposed or modified AM, FM or TV broadcast stations utilising the structure:
- (b) size and configuration of power transmission lines and their supporting towers:
- (c) site orientation, dimensions and construction materials of the proposed structure;
- (d) radius of crane boom operations;
- (e) obstacle lighting/markings installed or to be installed on the structure.

Lateral dimensions or position of activity (indicate the radius, width, area or geographical coordinates as required):	
Evidence of consultation with other affected airspace users, if any:	
Other information pertinent to the activity or event (procedures, support arrangements, expected periphery activity, etc, please attach as necessary)	

5. Certification

I hereby certify that all the above statements made by me are true and complete to the best of my knowledge. I further agree, should it be necessary, to mark and/or light the obstruction in accordance with the established marking and lighting standards.
