DESCRIPTION

Part 108 describes the security requirements for air operators performing regular air transport passenger services with aircraft certificated for 10 or more passenger seats from and within Mongolia.

This Part requires such operators, as part of the certification under Part 119 (holders of an airline air operator certificate) and Part 129 (holders of a foreign air operator certificate), to prepare and adopt an air operator security program covering the specific security requirements set out in the rule.

The security requirements for international air operators are consistent with ICAO standards and recommended practices.
