

**Part 119 / 135 Compliance Matrix – Dangerous Goods Carriage under Rule 92.1 – General Aviation Air Operator Certificate**

The Rule references in this compliance matrix have been extracted from the Civil Aviation Rules system as the minimum compliance requirements for an applicant for the issue or renewal of a Part 135 General Aviation Air Operator Certificate.

This matrix is part of a series of matrices applicable to Part 135 General Aviation Air Operator requirements. It contains operating and certification rule parts for the carriage of dangerous goods under Rule 92.1 only. VFR and IFR operations, maintenance requirements, dangerous goods under Rule 92.11 and training are to be found in the other matrices and will need to be selected to suit the particular type of operation.

A completed set of compliance matrices must be submitted by the applicant both for initial certification and for renewal. Additionally, the certificate holder should maintain an up-to-date compliance matrix to assist with on-going compliance and to support certificate amendment requests.

The purpose of the matrix is to speed up the certification process, ensure every applicable rule requirement has been addressed in the exposition and reduce the cost of certification by the quick location of required policies or procedures in the applicant's exposition manual suite.
